20 Practical Ways to Use AI

Beyond Writing Emails

20 practical applications for ChatGPT, Claude, Gemini, and other AI assistants.

By Weiwei Hu LinkedIn GitHub

1 Get Things Done at Work

Plan, prepare, and follow through

Break a complicated project into manageable tasks

01 · Project plan

Deliverables and tasks
Dependencies and owners
Milestone timeline

Extract important information from long documents

02 · Document brief

Key findings and numbers
Decisions and actions
Source references

Prepare for an important meeting

03 · Meeting prep

Opening and key points
Tough questions
Evidence gaps

Practice a difficult conversation

04 · Role-play

Natural opening
Realistic pushback
Feedback on tone

Organize scattered notes into useful actions

05 · Notes to actions

Actions and waiting-on
Owners and deadlines
Top three to start

2 Take Control of Your Time

Protect hours for the work that matters

Plan your week around your priorities

06 · Weekly plan

Protected focus time
Grouped activities
What to postpone

Decide what to do first

07 · Prioritize

Ranked task table
Today's top three
Delegate or drop

Reorganize your day when plans fall apart

08 · Re-plan the day

What still fits
What moves
Deadlines to renegotiate

Manage recurring responsibilities

09 · Recurring checklist

Prep and materials
Completion criteria
Automate vs. review

3 Make Better Decisions

Test your choices before you commit

Compare several options side by side

10 · Side-by-side

Benefits, costs, risks
Short- and long-term
Facts vs. assumptions

Find risks you may have overlooked

11 · Risk review

Five ways it could fail
Early warning signs
Skeptic's questions

Explore what-if scenarios

12 · Scenarios

Conservative to optimistic
Assumptions that matter most
Calculations shown

4 Make Everyday Life Easier

Money, meals, travel, home, and people

Understand where your money goes

13 · Spending review

Spend by category
Recurring payments
Ways to save

Plan meals using what you already have

14 · Meal plan

Five weekday dinners
Uses what you have
One shopping list

Plan a trip around your interests and budget

15 · Trip itinerary

Day-by-day plan
Costs and transport
What to verify

Organize home maintenance and responsibilities

16 · Home upkeep

Monthly to annual tasks
DIY vs. professional
Reminders

Prepare for a sensitive personal conversation

17 · Personal talk

Warm opening
Blame-free framing
Questions to ask

5 Make Progress on Your Personal Goals

Learn, plan, and review your progress

Learn a new skill with a structured practice plan

18 · Learning plan

Weekly objectives
Daily exercises
Tutor-style feedback

Turn a personal goal into a realistic action plan

19 · Goal plan

Milestones and timeline
First seven days
Busy-week version

Review your progress and decide what to do next

20 · Weekly review

Planned vs. done
Recurring obstacles
Next week's top three

Start with one thing you already need to do

You don't need to try all twenty. Pick something already on your to-do list: a meeting tomorrow, a decision you keep revisiting, or a goal you've been postponing. Tell your AI assistant your situation, explain what you're trying to accomplish, and ask for the outputs on the matching card. Then review the result, correct what needs correcting, and put it into practice.

The most useful AI prompt is often the one that helps you finish something you've already been meaning to do.

A small challenge for this week

1. Choose one application that matches a task already on your list.
2. Describe your situation to your AI assistant and ask for the outputs listed on the card.
3. Evaluate the result. Did it save time, improve your preparation, surface another option, or make the next action easier?

If the result felt generic, add more context or name the exact output you need. For anything that affects your health, finances, or business, verify the facts before you act.
