25 Practical Ways to Use AI

Beyond Writing Emails

25 practical applications for ChatGPT, Claude, Gemini, and other AI assistants.

By Weiwei Hu LinkedIn GitHub

1 Get Things Done at Work

Plan, prepare, and follow through

Break a complicated project into manageable tasks	Extract important information from long documents	Prepare for an important meeting	Practice an important conversation	Organize scattered notes into useful actions
01 · Project plan	**02 · Document brief**	**03 · Meeting prep**	**04 · Role-play**	**05 · Notes to actions**
Deliverables and tasks Dependencies and owners Milestone timeline	Key findings and numbers Decisions and actions Source references	Opening and key points Likely questions Evidence gaps	Natural opening Realistic responses Feedback and follow-up	Actions and waiting-on Owners and deadlines Top three to start

2 Take Control of Your Time

Protect hours for the work that matters

Plan your week and adjust when plans change	Decide what to do first	Manage recurring responsibilities	Decide what to hand off	Create a personal health and wellness plan
06 · Weekly plan	**07 · Prioritize**	**08 · Checklist**	**09 · Delegation plan**	**10 · Wellness plan**
Focus time and buffers Hours vs. capacity What moves if plans shift	Ranked task table Today's top three Delegate or drop	Prep and materials Completion criteria Automate vs. review	What AI can draft What others can own Hours freed up	Weekly activity schedule Sleep and rest routine Simple progress check

3 Make Better Decisions

Test your choices before you commit

Compare several options side by side	Find risks you may have overlooked	Explore what-if scenarios	Evaluate a business idea	Solve a problem that keeps coming back
11 · Side-by-side	**12 · Risk review**	**13 · Scenarios**	**14 · Idea check**	**15 · Root cause**
Criteria that matter Facts vs. assumptions One step forward	What could go wrong Early warning signs Questions to expect	Conservative to optimistic Assumptions that matter most Calculations shown	Customer problem Key assumptions 30-day validation plan	Facts vs. explanations Evidence for each cause One test to run

4 Make Everyday Life Easier

Money, meals, travel, home, and family

Understand where your money goes	Plan meals using what you already have	Plan a trip around your interests and budget	Organize home maintenance and responsibilities	Support children's learning
16 · Money review	**17 · Meal plan**	**18 · Trip itinerary**	**19 · Home upkeep**	**20 · Child's learning**
Spending by category Budget and savings Debt repayment options	Five weekday dinners Uses what you have One shopping list	Day-by-day plan Costs and transport What to verify	Monthly to annual tasks DIY vs. professional Reminders	Simple explanations Guided practice Short quiz

5 Make Progress on Your Personal Goals

Learn, plan, and review your progress

Negotiate a job offer with confidence	Map your next career move	Learn a new skill with a structured practice plan	Turn a personal goal into an action plan	Review your progress and decide what to do next
21 · Offer negotiation	**22 · Career roadmap**	**23 · Learning plan**	**24 · Goal plan**	**25 · Weekly review**
Total package review Your ask and script Practice the conversation	Roles that fit you Skills to build Quarterly milestones	Starting-level check Daily exercises Tutor-style feedback	Milestones and timeline First seven days Busy-week version	Planned vs. done Accomplishment record Next week's top three

→ How to use it

Start with one thing you already need to do

1. Pick one task already on your list.
2. Find the matching card.
3. Ask your AI assistant for the outputs on the card, then check key facts.

Complete a complex project
