25 Practical Ways to Use AI
Beyond Writing Emails

25 practical applications for ChatGPT, Claude, Gemini, and other AI assistants.

By Weiwei Hu LinkedIn GitHub

1 Get Things Done at Work

Plan, prepare, and follow through

Break a complicated project into manageable tasks

01 · Project plan

Deliverables and tasks
Dependencies and owners
Milestone timeline

Extract important information from long documents

02 · Document brief

Key findings and numbers
Decisions and actions
Source references

Prepare for an important meeting

03 · Meeting prep

Opening and key points
Likely questions
Evidence gaps

Practice an important conversation

04 · Role-play

Natural opening
Realistic responses
Feedback on tone

Organize scattered notes into useful actions

05 · Notes to actions

Actions and waiting-on
Owners and deadlines
Top three to start

2 Take Control of Your Time

Protect hours for the work that matters

Plan your week around your priorities

06 · Weekly plan

Protected focus time
Grouped activities
What to postpone

Decide what to do first

07 · Prioritize

Ranked task table
Today's top three
Delegate or drop

Reorganize your day when plans fall apart

08 · Re-plan the day

What still fits
What moves
Deadlines to renegotiate

Manage recurring responsibilities

09 · Checklist

Prep and materials
Completion criteria
Automate vs. review

Decide what to hand off

10 · Delegation plan

What AI can draft
What others can own
Hours freed up

3 Make Better Decisions

Test your choices before you commit

Compare several options side by side

11 · Side-by-side

Benefits, costs, risks
Short- and long-term
Facts vs. assumptions

Find risks you may have overlooked

12 · Risk review

What could go wrong
Early warning signs
Questions to expect

Explore what-if scenarios

13 · Scenarios

Conservative to optimistic
Assumptions that matter most
Calculations shown

Get unstuck on a decision you keep postponing

14 · Decision reset

Criteria that matter
What would change your mind
One small next step

Solve a problem that keeps coming back

15 · Root cause

Pattern and triggers
Likely causes
One fix to test

4 Make Everyday Life Easier

Money, meals, travel, home, and people

Understand where your money goes

16 · Spending review

Spend by category
Recurring payments
Ways to save

Plan meals using what you already have

17 · Meal plan

Five weekday dinners
Uses what you have
One shopping list

Plan a trip around your interests and budget

18 · Trip itinerary

Day-by-day plan
Costs and transport
What to verify

Organize home maintenance and responsibilities

19 · Home upkeep

Monthly to annual tasks
DIY vs. professional
Reminders

Prepare for a personal conversation

20 · Personal talk

Warm opening
Clear, kind framing
Questions to ask

5 Make Progress on Your Personal Goals

Learn, plan, and review your progress

Negotiate a job offer with confidence

21 · Offer negotiation

Total package review
Your ask and script
Practice the conversation

Map your next career move

22 · Career roadmap

Roles that fit you
Skills to build
Quarterly milestones

Learn a new skill with a structured practice plan

23 · Learning plan

Weekly objectives
Daily exercises
Tutor-style feedback

Turn a personal goal into an action plan

24 · Goal plan

Milestones and timeline
First seven days
Busy-week version

Review your progress and decide what to do next

25 · Weekly review

Planned vs. done
Recurring obstacles
Next week's top three

Start with one thing you already need to do

You don't need to try all twenty-five. Pick something already on your to-do list: a meeting tomorrow, a decision you keep revisiting, or a goal you've been postponing. Tell your AI assistant your situation, explain what you're trying to accomplish, and ask for the outputs on the matching card. Then review the result, correct what needs correcting, and put it into practice.

The most useful AI prompt is often the one that helps you finish something you've already been meaning to do.

A small challenge for this week

1. Choose one application that matches a task already on your list.
2. Describe your situation to your AI assistant and ask for the outputs listed on the card.
3. Evaluate the result. Did it save time, improve your preparation, surface another option, or make the next action easier?

If the result felt generic, add more context or name the exact output you need. For anything that affects your health, finances, or business, verify the facts before you act.
