20 Practical Ways to Use AI

Beyond Writing Emails

20 practical applications for ChatGPT, Claude, Gemini, and other AI assistants.

By Weiwei Hu LinkedIn GitHub

1 Get Things Done at Work

Plan, prepare, and follow through

Break a complicated project into manageable tasks	Extract important information from long documents	Prepare for an important meeting	Practice a difficult conversation	Organize scattered notes into useful actions
01 · Project plan	**02 · Document brief**	**03 · Meeting prep**	**04 · Role-play**	**05 · Notes to actions**
Deliverables and tasks Dependencies and owners Milestone timeline	Key findings and numbers Decisions and actions Source references	Opening and key points Tough questions Evidence gaps	Natural opening Realistic pushback Feedback on tone	Actions and waiting-on Owners and deadlines Top three to start

2 Take Control of Your Time

Protect hours for the work that matters

Plan your week around your priorities	Decide what to do first	Reorganize your day when plans fall apart	Manage recurring responsibilities
06 · Weekly plan	**07 · Prioritize**	**08 · Re-plan the day**	**09 · Recurring checklist**
Protected focus time Grouped activities What to postpone	Ranked task table Today's top three Delegate or drop	What still fits What moves Deadlines to renegotiate	Prep and materials Completion criteria Automate vs. review

3 Make Better Decisions

Test your choices before you commit

Compare several options side by side	Find risks you may have overlooked	Explore what-if scenarios
10 · Side-by-side	**11 · Risk review**	**12 · Scenarios**
Benefits, costs, risks Short- and long-term Facts vs. assumptions	Five ways it could fail Early warning signs Skeptic's questions	Conservative to optimistic Assumptions that matter most Calculations shown

4 Make Everyday Life Easier

Money, meals, travel, home, and people

Understand where your money goes	Plan meals using what you already have	Plan a trip around your interests and budget	Organize home maintenance and responsibilities	Prepare for a sensitive personal conversation
13 · Spending review	**14 · Meal plan**	**15 · Trip itinerary**	**16 · Home upkeep**	**17 · Personal talk**
Spend by category Recurring payments Ways to save	Five weekday dinners Uses what you have One shopping list	Day-by-day plan Costs and transport What to verify	Monthly to annual tasks DIY vs. professional Reminders	Warm opening Blame-free framing Questions to ask

5 Make Progress on Your Personal Goals

Learn, plan, and review your progress

Learn a new skill with a structured practice plan	Turn a personal goal into a realistic action plan	Review your progress and decide what to do next
18 · Learning plan	**19 · Goal plan**	**20 · Weekly review**
Weekly objectives Daily exercises Tutor-style feedback	Milestones and timeline First seven days Busy-week version	Planned vs. done Recurring obstacles Next week's top three

Start with one thing you already need to do

You don't need to try all twenty. Pick something already on your to-do list: a meeting tomorrow, a decision you keep revisiting, or a goal you've been postponing. Tell your AI assistant your situation, explain what you're trying to accomplish, and ask for the outputs on the matching card. Then review the result, correct what needs correcting, and put it into practice.

The most useful AI prompt is often the one that helps you finish something you've already been meaning to do.

A small challenge for this week

1. Choose one application that matches a task already on your list.
2. Describe your situation to your AI assistant and ask for the outputs listed on the card.
3. Evaluate the result. Did it save time, improve your preparation, surface another option, or make the next action easier?

If the result felt generic, add more context or name the exact output you need. For anything that affects your health, finances, or business, verify the facts before you act.
